How to earn free shares of Values

login email _____ password _____

Purpose of this Document

This document explains how you can be rewarded for your participation in a persistent, nation-wide, Educational Simulation. The goal of this community project is to rebuild America on a solid foundation of biblical principles. We will show you how you can earn real-world benefits from this fun and exciting virtual world we call Anvóy America!

You will be part of a "Crew" or team that promotes various "Values." These Values are like shares of virtual Stocks that can be bought and sold. They also represent important concepts or beliefs that if applied to your life can pay you big dividends. By promoting these Values via this platform, you can earn free shares of them. You can either keep them and build your own portfolio of them, or sell them and spend the proceeds to buy something you want.

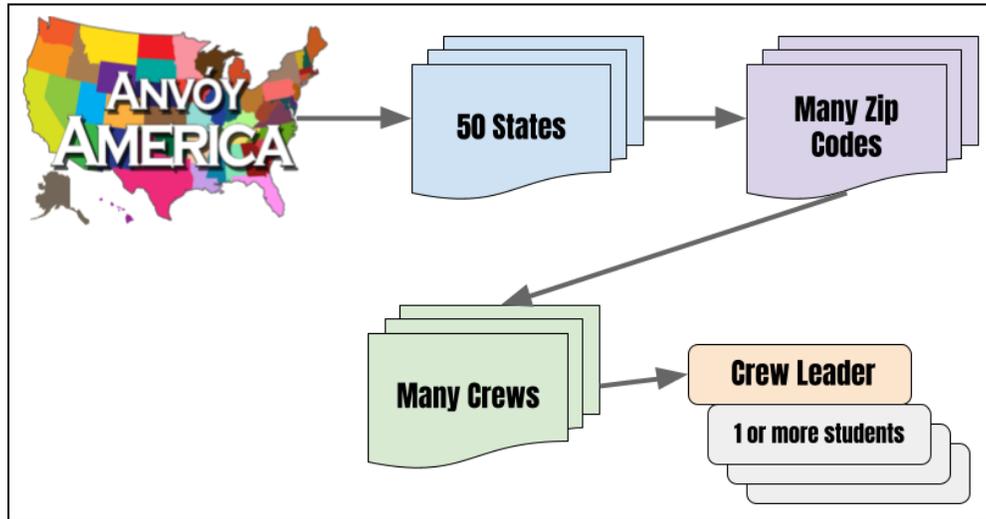

If you haven't already done so, we recommend that you read the "Leveraging Basic Features" document, as it explains all of the basic features of anvoy.com.

Table of Contents

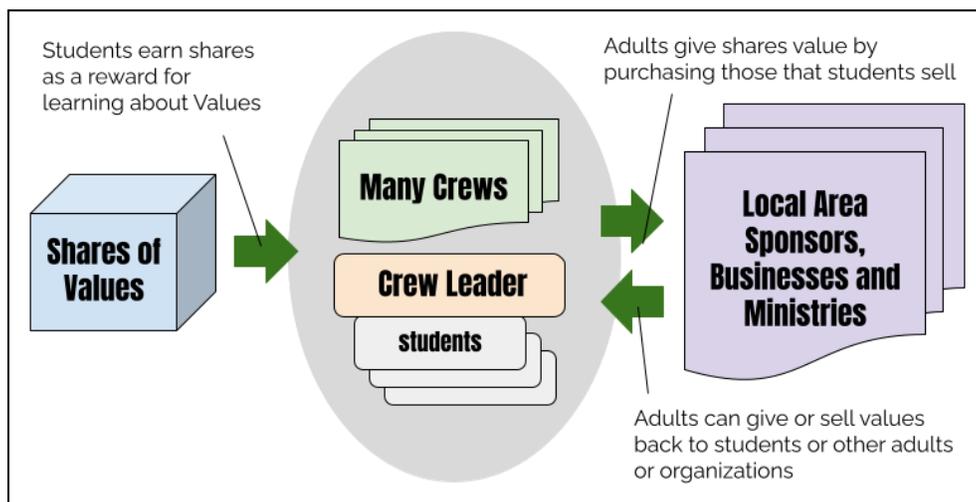

1) How Students benefit from Values	2
2) Joining a Crew and Earning Points	3
3) Earning Shares of Values	3
4) Sharing evidence	4
5) Selling your Values on the "Stock Market"	5
6) Buying Values on the "Stock Market"	6

1) How Students benefit from Values

Anvóy America's **stock market** is like the real world in that you can buy and sell shares that go up or down in price. But Anvóy America's stock market is different in that it trades **Values** which represent biblical principles, not ownership of for-profit companies.

Every state is divided into local areas by zip code and there can be many Crews, or small groups, in every local area. A Crew is simply a parent, teacher or other adult and 1 or more students between the ages of 5 and 25. Crew Leaders can lead more than 1 crew, and students can also be on more than one crew. Crew Leaders help their students build a Portfolio of Values that bless them by paying "dividends" throughout the rest of their lives. The whole community participates in this process by also learning about the Values and buying shares of Values that students want to sell.

Students are given free shares of Values as a reward for promoting the Values and learning about the life-saving principles they represent. Every student has his or her own account where these shares accumulate. Students can sell shares of Values and spend the proceeds at participating businesses and ministries in the community. This process of trading Values can benefit everyone. It allows **Sponsors** to

create excitement about and interest in the Values. It rewards students for learning and promoting the Values. And businesses and ministries earn revenue from students when they spend their rewards.

2) Joining a Crew and Earning Points

To earn more free shares of Values, you need to be part of a Crew. The easiest way to join a Crew is to use an invitation link from the Crew Leader. This link can be used to Sign Up or it can also be used after you sign up. Either way, it will automatically add you to the Crew. Another way to sign up for a Crew is to find it by searching either the State or Local Zip Code for the group and then requesting permission to join it.

Once you are a member of at least one Crew, you have the opportunity to earn Value every week. To earn shares, you must perform in the top 70% of all Students. In other words, you must perform better than 30% of other Students.

Student performance is measured by points. The more points you have, the better your performance. You earn points for various actions you take either as an individual or a Crew. You can see the points you have earned by clicking on the "Actions" button of your profile. See the image below:

Activity Summary	Events	Points
Someone you invited signed up	16	1600
Someone you invited visited the website	170	264
Weekly Invite Bonus Points	12	2021
Points for Store Purchases	7	35
Bonus for Adam and Values owned	3	25

Total points are: 13,250 which ranks higher than 99% of all other members

You earn points for inviting others to join Anvóy, for promoting Values, helping others and many other tasks. The total quantity of points you earn every week is used to determine how many free Values you receive. Here are the quantity of points you earn for various tasks:

- You invite someone to join Anvóy and they visit the website 3 pts
- You invite someone to join Anvóy and they do 100 pts
- You share evidence related to a Value ? pts

3) Earning Shares of Values

You earn rewards for learning and promoting Values. As long as you are in the top 70%, you earn a quantity of shares of the Values you are supporting. You can hold on to these shares and hope that they become more valuable. Or you can sell them and spend or donate the proceeds.

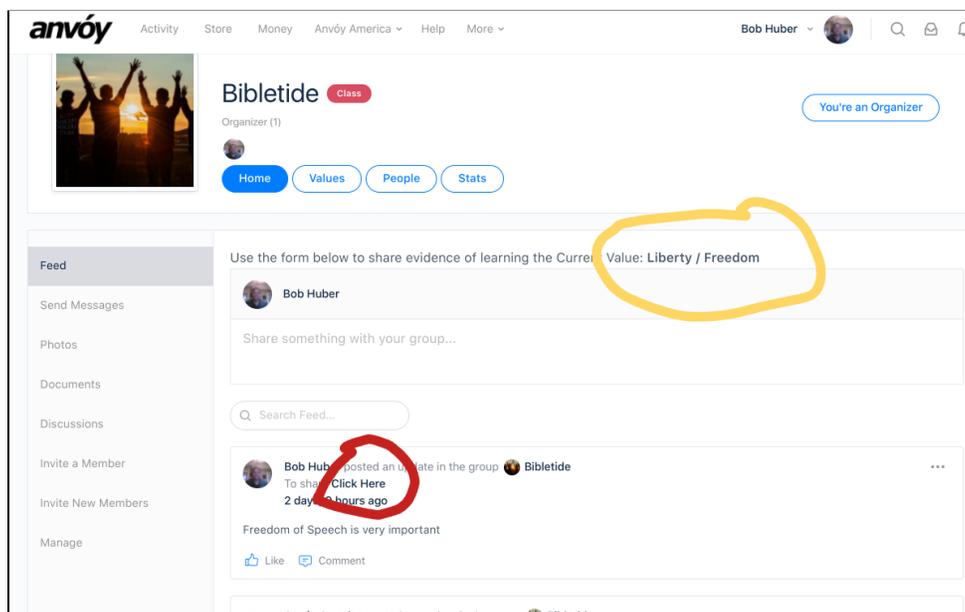

Rewards for Students will be calculated and awarded every weekend. They are based on activity points earned. Students are ranked by a percentage that ranges from 0 to 100. A rank of 100 means that the student had the highest point total for the previous week. A rank of 50 means that the student had more points than half of all the students. A set maximum dollar amount of Values is given each week. Each student earns a percentage of the maximum that is equal to their rank. For example, a student ranking at 90% will get 90% of the maximum and a Student at 50% will get half of the maximum, and so on.

The minimum level of engagement is a rank of 30%. Students that don't reach this level will not receive any reward for that week. Every Student gets a message that explains what their rank was and how their reward was calculated.

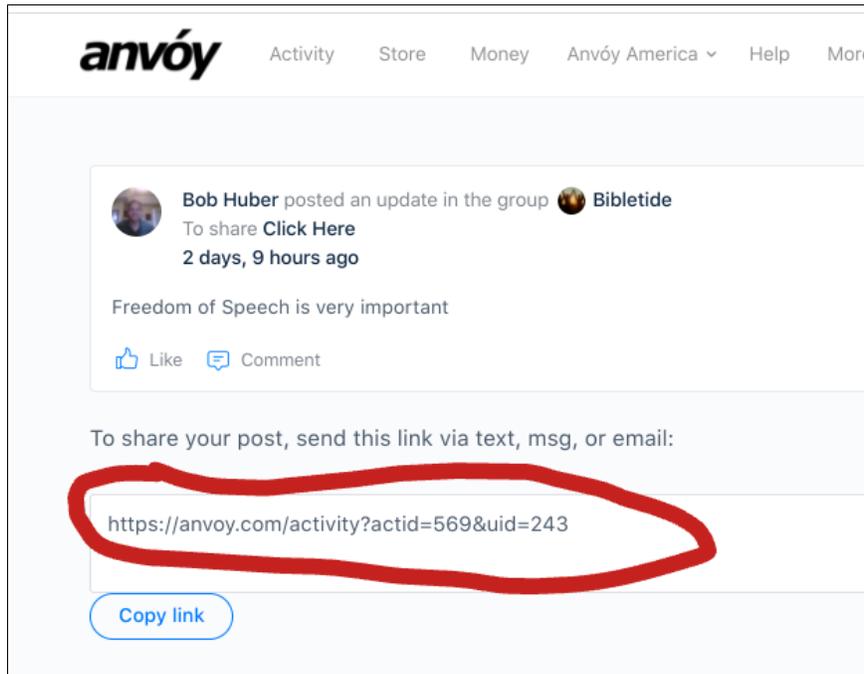

The system chooses which Value is rewarded based on the Student's activities for the prior week. It looks at which Value was learned or promoted most and rewards that Value.

4) Sharing evidence

There is one current Value for Evidence posts at a time. The Crew Leader picks a Value for the day, week, or some other time period. Then, students post their evidence for learning the Value on the Homepage for the Crew.

Above you can see the current selected Value circled in yellow. This tells the student that they can post evidence for that Value and then share it. To share a post, click the link circled in red.

The above form will open and will give you or the student the link to share their evidence with others. When others view, like or comment on the evidence, the system records the activity. This activity validates that the students did the work and allows them to be awarded shares of Values as a result.

5) Selling your Values on the “Stock Market”

If you choose to sell Values, Sponsors or other members can buy shares from you. The price for the shares is determined by a competitive market. Lower prices are sold first. If the price you set is too high, then your shares won't sell. The higher the demand for the Values, the higher the price will be and the greater the reward will be for the Students. Likewise the lower the demand, the lower the price. This is why it benefits all Students to promote the Values and thus increase their demand.

You could sell Values directly by giving them the shares to a member who then gives funds back. This works well if you know someone who wants to buy your shares, but there is a more convenient way: using Anvóy's “stock market.”

To sell shares via the Stock Market, click on the “Money” menu to open the Asset application. Within the Asset app click on the “Move Funds” menu and select “Trade Values.” You will see the following screen:

anvoy Asset Move Funds ▾ Info ▾ Setup ▾ About ▾ Go to ▾

Value Orders

The 'Liberty / Freedom Value'

Balance	7000.00
Ave Cost per share	0.0056

Buy Sell

Sell Status: Enter a Quantity and Price

Quantity you want to sell:

Minimum price you will accept: \$ Note: This is the price you will get if a buyer is found. The most recent price was \$0.0100.

Update Refresh List View

Enter the number of shares you want to sell. Next, enter the minimum amount per share that you will accept and click the Update button. This offer to sell will remain until it is either Canceled or filled.

To cancel an order, enter zero for the quantity and click the Update button.

6) Buying Values on the “Stock Market”

If you want more shares of Values, you can buy more via the Stock Market exchange. In order to do this you will need to have funds in your account.

There are several ways to add funds to your account:

- Someone else can give you funds
- You can send in a check
- You can buy funds by using your credit card and the store at anvoy.com/store
- You can sell shares of Values that you own

The screen below shows how you can add \$100 or more to your account if you decide to take that route.. You purchase the funds just like you would purchase any other product from the store.

Description

Description

Want to support Anvóy Values Education in your community, but aren't interested in mentoring

Once you have funds in your account, you will be able to place orders for Values that other members have for sale. These orders may be filled immediately or they may take several days depending on the price you enter.

anvóy Asset Mov

Value Orders

The 'Liberty / Freedom Value'

Balance	9000.00
Ave Cost	0.0056

[Buy](#) [Sell](#)

Buy Status: Closed - 1000 qty purchased

Quantity you want to buy:

Maximum price you will pay:

Note: You will always get the lowest price even if the price you offer is higher. Low offers might not be accepted.

[Update](#) [Refresh](#) [List View](#)

For example, if you are buying shares and the price you offer is too low, the offer may never be filled. You don't have to worry about offering a price that is too high, because the system will always give you the lowest price available. Higher prices orders are usually filled immediately. If you offer a lower price, you

may need to wait awhile until someone decides to sell at that price. If so, your offer will remain open until you cancel it.

Use the form shown above to enter the quantity of shares you want to buy and the price you want to pay. To get to this form, click on the "Money" menu to open the Asset application. Within the Asset app click on the "Move Funds" menu and select "Trade Values." You can also select the Value from the list of Foundational Values first and click the buy link from there.

Once you own a value, it will appear in your account and in your list of Assets. You will be able to see how it changes in value. You will see these gains or losses within the simulation.
